LSI INDEPENDENT COLLEGE PROVIDES HIGH QUALITY, FULLY ACCREDITED, A LEVEL AND UNIVERSITY PREPARATION PROGRAMMES. WE PREPARE STUDENTS FROM ALL OVER THE WORLD TO GAIN ENTRY INTO SOME OF THE UK'S MOST PRESTIGIOUS UNIVERSITIES. OVER THE LAST 50 YEARS, OUR INSTITUTION AND OUR ACADEMIC STAFF HAVE GARNERED FIRST CLASS REPUTATIONS IN THE EDUCATION COMMUNITY, THROUGH OUR LONG-STANDING COMMITMENT TO OUR STUDENTS' ACADEMIC SUCCESS AND PERSONAL DEVELOPMENT.

A FULLY EQUIPPED, MODERN EDUCATIONAL
FACILITY OCCUPYING A SPACIOUS VICTORIAN
BUILDING IN LEAFY HAMPSTEAD – JUST 12
MINUTES BY TUBE FROM CENTRAL LONDON.

Accreditation & Membership

ALL LSI SCHOOLS ARE FULLY ACCREDITED BY LOCAL AND NATIONAL AGENCIES AND ARE MEMBERS OF INDUSTRY ORGANISATIONS. LSI INDEPENDENT COLLEGE IS INSPECTED BY OFSTED AND IS REGISTERED AS AN EXAMINATION CENTRE FOR ALL THE MAIN EXAMINATION BOARDS. IT'S A UKVI TIER 4 SPONSOR AND IS A MEMBER OF CIFE. INFORMATION ABOUT THE SCHOOL'S RECENT INSPECTION REPORTS CAN BE FOUND ON OUR WEBSITE.

"In all disciplines, teachers have very strong subject expertise and teaching experience. They plan lessons in a logical and challenging way. Students gain new knowledge and deepen their understanding well.

Through regular assessments teachers identify any students falling behind. Together with pastoral leaders, they give students extra support. As a result, students, achieve well across the subjects. Most students continue to university, including economics and medicine."

Current Ofsted Report

Why Study With Us

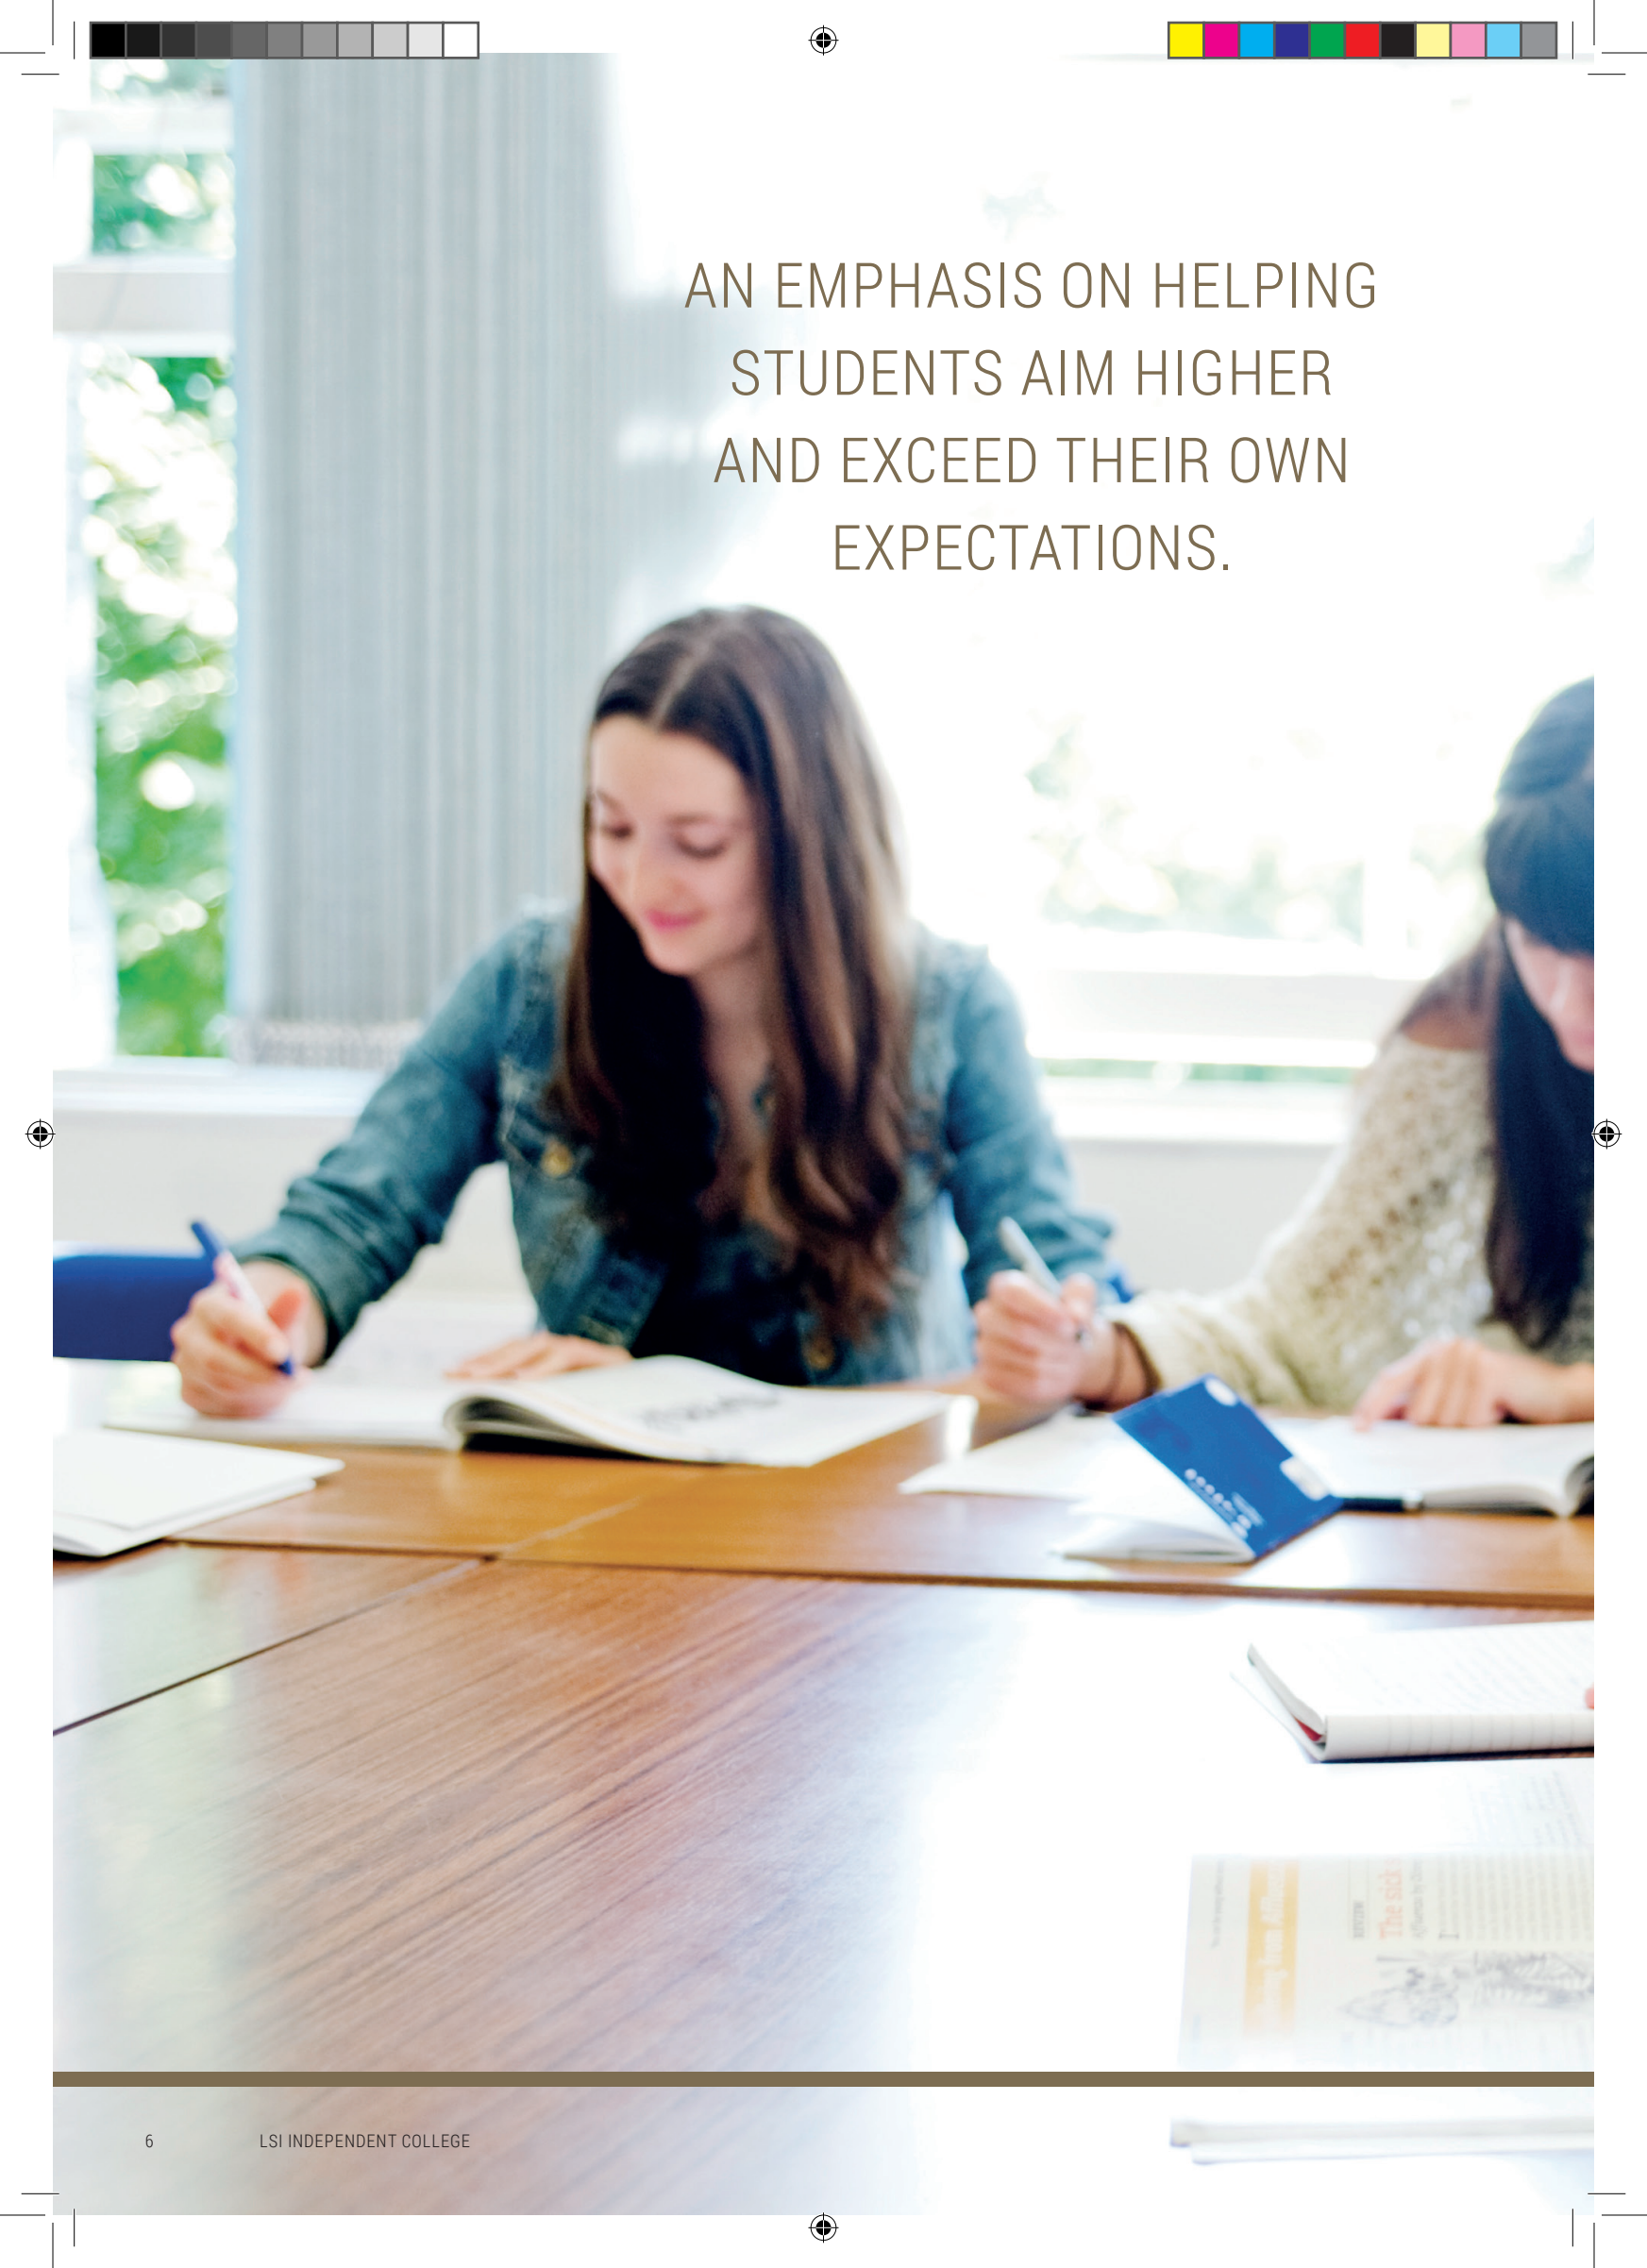

At LSI Independent College, we are dedicated to ensuring that each student reaches his or her full potential, both academically and personally. Our focus is on helping each student to achieve the best possible results while providing a learning environment which is nurturing and supportive. Building the self-confidence and sense of well-being in each and every one of our students is a fundamental part of our mission, so that our cohort leaves LSI with the grades they need, but also with the self-assurance that they need to thrive. This ethos feeds back into successful applications to universities and success in the wider employment world, where confidence is crucial.

From enrolment through to graduation and admission into university, we are dedicated to your personal development, providing support and advice to help you plan for a bright future. Our academic staff will identify which learning style is best suited

to you and will work with you to foster critical thinking and a capacity for independent learning, crucial for successful university applications.

LSI will help you achieve your best possible results through intensive structured teaching in small classes, knowledgeable and committed teachers, regular progress testing and individual study plans. In addition, we monitor and support each student through one-to-one tutorials and supervised self-study programmes.

At LSI, we encourage maturity in our cohort by treating each student like a young adult. Teachers and students refer to each other on a first name basis and students are not expected to wear a uniform. We capitalise on this mutual respect to engender confidence in our academic and social programme. Our students trust us to help build their confidence and reach their potential.

AN EMPHASIS ON HELPING
STUDENTS AIM HIGHER
AND EXCEED THEIR OWN
EXPECTATIONS.

Welcome from the LSI team

Welcome to the LSI Independent College. We aim to provide academic excellence for our students in a friendly, purposeful and supportive environment; although our approach is socially informal, hard work and the academic success that comes from this, are central to our ethos. We offer a unique personal approach, precisely tailored to students' needs.

Underpinning our commitment to academic success for our students is a dedication to pastoral care. We see the two as going hand in hand in shaping students and their futures. LSI is committed to creating independent students who will take responsibility for their own learning, equipping them not only with the tools that they need for sixth form success, but also with the skills and qualities they need for university and their future careers.

LSI has garnered a reputation for excellence over a broad range of areas, from international language centres to preparatory schools and now our independent college. During that time LSI has consistently delivered excellent educational courses with years of expertise in advising students about their university choices. This wealth of experience greatly benefits our students.

The wide range of quality on offer at LSI Independent College, coupled with the supportive environment and excellent pastoral care, ensures our students will be successful in this crucial stage of their academic and personal development.

We look forward to welcoming you to our college and to the adventure which awaits you.

The Campus

All courses at LSI Independent College are based in our beautiful and spacious Victorian building in the leafy borough of Hampstead. LSI's location provides a tranquil environment in which to study, in one of the most beautiful parts of London. The college has excellent transport links and is only 12 minutes from the heart of London, by tube or by bus. In addition, we are a short walk from the Freud museum, the poet John Keats' house and of course London's largest park, Hampstead Heath.

Classrooms are fully equipped with technology including internet, computers, large screen TVs and interactive whiteboards. We also have a specially designed laboratory for our science programme. All of our classrooms are spacious and have natural light. The campus has a dedicated student lounge and a beautiful garden that can host college events in the summer, providing the perfect environment to foster a strong student community.

Academic Programme

OUR FOCUS IS ON HELPING
EACH STUDENT TO ACHIEVE
THE BEST POSSIBLE RESULTS
WHILE PROVIDING A LEARNING
ENVIRONMENT WHICH IS
NURTURING AND SUPPORTIVE.

AT LSI INDEPENDENT COLLEGE, WE ARE COMMITTED TO ENSURING EACH AND EVERY STUDENT REACHES THEIR POTENTIAL. OUR SMALL CLASS SIZES, CLOSE ACADEMIC SUPERVISION AND EMPHASIS ON PASTORAL CARE ENSURE WE FOCUS ON STUDENTS AS INDIVIDUALS.

WE BELIEVE THAT THE PATH TO ACADEMIC AND PERSONAL SUCCESS VARIES FROM STUDENT TO STUDENT, SO OUR PROGRAMME PROVIDES THE FLEXIBILITY NEEDED TO WORK WITH ALL OF OUR STUDENTS, ADAPTING TO DIFFERENT SKILL SETS, NEEDS AND GOALS.

Our Teaching Methodology

At the heart of our academic programme is engaging and dynamic teaching that motivates and challenges our students. Our teaching methodology is based around interactive classes where each student is an active participant. Our small class sizes, generally no larger than 8 students, engenders full participation, ensuring students not only engage, but actively contribute to programme development.

At LSI Independent College we believe that excellent teaching involves not just the delivery of key knowledge and skills but the ability to engender a shared passion for the subject. Our teachers encourage critical thinking, questioning and debate. They expect students to challenge and offer alternative points of view. Our teachers create an environment in which students are curious and motivated, so that our students can build on the syllabus and can become independent learners; with the desire to think for oneself, the ability to select information and the confidence to construct an informed argument. We believe this is fundamental, both to the student's success at the examinations, but also to their wider success at university and in the work place.

A level Subjects

A levels are the standard qualifications required for admission to most UK universities. Even in Scotland, where the Scottish Higher is the predominant entry level qualification, A levels are widely accepted.

The college mainly offers the following subjects at A level but other subjects can be catered for on request:

Art

Biology

Business

Chemistry

Computer Science

Economics

English Literature

French

History

Mathematics

Further Mathematics

Physics

Politics

Psychology

Spanish

Progress Tracking

Students receive feedback on a daily basis from their class teachers. In addition, every student is supervised by their Director of Studies, who reviews their progress through meetings with their class teachers and evaluation of test and assignment scores. Teachers regularly write grade predictions and progress reports, which are discussed with the student before being sent on to parents. Directors of Studies meet each student regularly to discuss their progress in scheduled tutorials.

Parents are kept fully informed of progress in regular correspondence with Directors of Studies and are warmly encouraged to contact us at any time. We view parents' participation as fundamental and we welcome an ongoing dialogue. In cases where we identify issues, parents will be informed immediately and we will work together to provide support and resolution.

EPQ

In addition to studying for their 3 main A levels, students may elect to take an EPQ (Extended Project Qualification). This is a largely self-directed course of study that is roughly equivalent to half an A level credit towards university admission.

An EPQ allows individuals to choose their own research topic with each student being responsible for their own learning and development. The EPQ is a progressive way to encourage independent learning and is a useful aid for successful university applications.

The EPQ teaches new skills, such as independent research and project management. Completing the project engenders confidence and a sense of achievement. The EPQ offers students the opportunity to build a product or engage in high level research while providing a competitive advantage for university applications.

Although the subject of the EPQ is completely open to an individual's interests, we encourage students to pursue projects that relate to their university course choices and will therefore be most likely to assist in their applications when writing personal statements and in potential interviews.

THE EPQ IS A PROGRESSIVE WAY TO ENCOURAGE
INDEPENDENT LEARNING AND IS A USEFUL AID FOR
SUCCESSFUL UNIVERSITY APPLICATIONS.

Intensive Courses

LSI Independent College can help you to improve your A level results and university options through small nurturing classes, dedicated supportive teachers and excellent UCAS support.

One-year Intensive A level Re-sit

Our intensive one-year re-sit programme provides students with the opportunity to improve their current A level grades and reach their full potential. Our teachers give a great deal of attention to individual students' needs while our specialised UCAS support helps to make each student's application more effective.

students with the opportunity to gain further understanding and skills that they may have missed during the first year of their studies. These courses may also be suitable for strong students wishing to take one or more A levels in a short period of time.

External Tuition

We offer A level and GCSE tuition for external students in a wide range of subjects, depending on tutor availability.

One-year Upper Sixth Courses

Students may transfer into the second year of our A level programmes and continue their studies with us. Our one-year upper sixth course provides

IMPROVE YOUR A LEVEL RESULTS AND UNIVERSITY OPTIONS
THROUGH SMALL NURTURING CLASSES, DEDICATED SUPPORTIVE
TEACHERS AND EXCELLENT UCAS SUPPORT.

NCUK International Foundation Year

Our University Foundation Programme, in partnership with NCUK, offers an accelerated path to 1000s of university programmes. And it's designed to equip you with the essential academic skills and knowledge needed for success in your chosen field when you gain your university place.

Our programme meets the highest academic standards set by our university partners. As well as academic knowledge, the university preparation program will give you specialist English language, study and cultural skills that are an essential part of your degree course. This unique combination will help you to get into the university of your choice, and progress with your future career.

You will study three academic modules depending on which degree you want to study at university. You will also study our English for Academic Purposes module which gives you the academic English language skills needed for university. We have the following streams available:

International Foundation Year in Management and Finance

International Foundation Year in Art and Design

International Foundation Year in Humanities and Social Science

International Foundation Year in Engineering

International Foundation Year in Science

PROGRAMME REQUIREMENTS

AGE: 17 years old by the 31st December in the year that you start the IFY

ENGLISH LANGUAGE LEVEL: IELTS 5.5 level or equivalent prior to entry

LENGTH: 3 terms (Autumn, Spring & Summer)

APPLICATION DEADLINE: Late August

ACADEMIC ENTRY REQUIREMENTS: Completion of 12 years of high school education with pass grades (or equivalent to meet the same standard).

Upon successful completion of the programme, students are guaranteed a conditional place on a relevant undergraduate degree.

GUARANTEED ENTRY TO
THOUSANDS OF UNIVERSITY
DEGREES INCLUDING MANY
UNIVERSITIES FROM THE
RUSSELL GROUP.

University Preparation Services

At LSI Independent College, we expect the overwhelming majority of students in each year to go on to further study at university. We work with each student to identify which universities to target and apply for. Our system provides guidance and support in one-to-one tutorials. We help with research and with all aspects of the application process, ensuring that you make the right choice and that your application has the best chance of success.

In addition, our Careers and Higher Education Coordinator leads a comprehensive programme of events that introduces students to various university programmes and resources as well as building key skills fundamental to the application process. This programme includes:

Career Assessment – Students may choose to take a career assessment test, provided by ISCO, the Independent Schools Careers Organisation.

ISCO can provide students with an individual report outlining career options as well as providing access to online resources.

Guest Speakers – LSI invites admissions officers from top universities to speak to students, providing information about their own programmes. These seminars provide key information about how to choose courses and also explain what admissions officers are looking for in applications.

University visits – Our Careers and Higher Education Coordinator leads trips to universities each year where students meet with lecturers and current undergraduates in order to get a feel for the universities and to learn about course options.

The majority of our students choose to go to UK universities. However, we can provide support for those wishing to study abroad, including specialist SAT classes.

WE HELP WITH RESEARCH AND WITH ALL ASPECTS OF THE APPLICATION PROCESS, ENSURING THAT YOU MAKE THE RIGHT CHOICE AND THAT YOUR APPLICATION HAS THE BEST CHANCE OF SUCCESS.

Preparation for Oxford & Cambridge Universities

Our Oxbridge Preparation programme is designed to support our most able students in gaining admission to Oxford and Cambridge Universities. We offer guidance through every aspect of the application process, starting with which course and college to aim for, through to understanding the systems in place, culminating in the interview itself. Our Oxbridge Preparation includes:

Intensive academic preparation – Our small class sizes ensure that every student is given the support and guidance they need to realise their objectives. Students on the Oxbridge Preparation programme will be given a personalised study plan, which is integrated into the general programme.

Personalised study plans – Students receive one-to-one tuition with the Director of Studies and are set an individual study plan that extends beyond the regular scope of the A level curriculum. Not only does this additional study encourage students to get the best possible A level results, but it also allows them to explore the subject in greater depth.

Interview practice – Students are given rigorous interview training, either individually or in small groups, to replicate the Oxbridge interview process and make students comfortable in this environment.

Student Life

AT LSI INDEPENDENT COLLEGE WE
PRIDE OURSELVES ON THE SAFETY,
HAPPINESS AND WELL-BEING OF
OUR STUDENTS.

Pastoral Care

At LSI Independent College we pride ourselves on the safety, happiness and well-being of our students. Student welfare is a fundamental part of our programme, which we recognise as being as important to our students' development as the academic programme.

Starting a new school can be daunting, particularly when meeting pre-existing groups of friends. At LSI, our cohort will be joining us from other schools, state and independent schools as well as from schools abroad; so, everyone will be in

the same situation, making it easier for students to find their feet and make new friends.

On your first day at LSI, your appointed mentor and the school welfare officer will meet with you to introduce you to the other students, school staff and school welfare services. They will be on hand throughout your programme to offer support and advice. We also organise a regular and varied social programme for all students, ensuring that it is easy to get to know everyone else and make new friends.

WE ORGANISE A REGULAR AND VARIED SOCIAL PROGRAMME FOR ALL STUDENTS, ENSURING THAT IT IS EASY TO GET TO KNOW EVERYONE ELSE AND MAKE NEW FRIENDS.

Academic & Extra-curricular Programme

Typical Weekly Schedule

The final look of your timetable will depend on your choice of subjects, but the typical college day is between 9am and 4pm, apart from Tuesdays and Thursdays when lessons finish at 3pm to allow for extra-curricular activities and our enrichment programme.

For our A level students, each subject is allocated five hours per week in the first year. In the second year this changes to six hours per week. Most students take three A level subjects. Our IFY students will study three academic modules and our English for Academic purposes.

Although each student's schedule may vary, here is a timetable for a typical A level student:

	Monday	Tuesday	Wednesday	Thursday	Friday
9-11	Economics	Economics		Mathematics	
11-1	Mathematics	Academic English	Further Mathematics		
1-2	Lunch	Lunch	Lunch	Lunch	Lunch
2-3	Further Mathematics	Further Mathematics	Economics	Further Mathematics	Academic English
3-4			Mathematics		

Exams

Students may take standalone AS examinations at the end of the first year of a two-year A level programme. The Directors of Studies will liaise with the subject tutors about AS examination entries. In most cases students will be taking their final examinations at the end of the second year. Students on one-year programmes will sit all of their papers at the end of that year.

Extra-curricular

There is a vibrant social programme at LSI, which includes weekly extra-curricular activities. We take students to cultural institutions, meals out and trips associated with the academic programme. We also have a welcome BBQ for new students as well as an end of year party.

Private Study

Your timetable is likely to contain some free periods, in which you'll be able to complete homework assignments, prepare for presentations and tests, or socialise with your friends. There are two common spaces on campus to spend your free periods: the student lounge/cafeteria and the student library. The garden is also available during the summer months.

Enrichment Programme

WE CURATE A DIVERSE RANGE OF ACTIVITIES THAT TRANSCEND TRADITIONAL LEARNING BOUNDARIES AND GO BEYOND THE CLASSROOM. THIS PROGRAM EMPOWERS STUDENTS TO EXPLORE THE RICH TAPESTRY OF CENTRAL LONDON, AND CULTIVATES A LIFELONG LOVE FOR LEARNING.

Flexibility is at the heart of our program, with activities subject to change to align seamlessly with evolving student needs and preferences. Whether it's tailoring workshops to specific interests or introducing new and dynamic experiences, we prioritize adaptability. This ensures that our activity offerings remain responsive and resonate with the diverse passions and aspirations of our students.

Holistic Growth

We believe in nurturing well-rounded individuals beyond academic pursuits. Our Holistic Growth Program is designed to cultivate students into

impactful global citizens, equipped with the skills and insights necessary for navigating life's significant decisions. We cover key areas such as Personal, Social, and Health Education (PSHE), fostering skills beyond traditional subjects. We emphasize cultivating a sense of global citizenship, encouraging students to stay informed about the world and develop the ability to critically analyze information. Additionally, the program underscores the importance of respecting diversity, instilling values that reject prejudice and discrimination. Furthermore, it prepares students for independence and responsibility as they transition into adulthood, focusing on risk assessment and decision-making skills.

International Students

INTERNATIONAL STUDENTS ARE WELCOMED AT LSI
INDEPENDENT COLLEGE. LSI AS A COLLEGE IS ENRICHED BY
ITS DIVERSE AND VIBRANT STUDENT BODY.

Overview

We have borne our international students very much in mind when drawing up our curriculum, choosing subjects which are popular among international students as well as UK students.

On arrival in the UK, it is important that students settle in quickly and feel at home. The friendly atmosphere in the college makes this easier, but we also provide an induction programme which helps students get used to academic life in the UK as well as life in London in general. Our location in the leafy suburb of Hampstead, as well as the homely environment of the college, further help international students to acclimatise; however, our close proximity to central London also enables students to savour the cultural richness that London has to offer.

We believe integration is key to academic success and each individual student's sense of well-being, so we provide our international students with many opportunities to interact with home students and students from other nationalities. Our extensive extra-curricular programme facilitates this integration.

Each student at LSI, including international students, is assigned a Director of Studies, who is responsible for the student's pastoral and academic welfare. Regular feedback, including written reports, is given to parents and regular parental communication is encouraged. Every international student needs an education guardian, who can relay this feedback to the parents, if the parents' first language is not English, as well as being an emergency contact for the student. Expert university advice is a key feature of LSI and is administered through the Director of Studies system, as well as through consultation with subject experts.

For students who need extra help with the English that they need for their examinations or preparation for important English tests such as IELTS, LSI is uniquely placed to support them, with its 50 years of experience of English language teaching at a high level. English language support is available to all of our international students, whatever their level. A minimum of Band 5.5 IELTS is required for our programmes. The college can also set its own English language test to determine a student's level.

Prospective students will be interviewed before the start of their course. Interviews can be arranged with LSI representatives in a student's home country or via Skype with a member of the college's academic team in London.

Pre-sessional English Programmes

With an excellent reputation for English language training established over 50 years, LSI can offer expert assistance to students who do not meet the 5.5 IELTS requirement. Students can take pre-sessional English programmes at the LSI Independent College campus prior to the start of their programme. For programmes that start in September, pre-sessional English programmes run in July and August. For A Level Students who have not reached the English requirement by September, subject to prior academic performance and visa requirements, students may be able to extend their pre-sessional English studies and follow on with our shorter 18 month A level programme. Please visit our website or contact the school for more information.

Guardianship

ALL INTERNATIONAL STUDENTS MUST HAVE A DESIGNATED EDUCATION GUARDIAN WHILE IN THE UK. THIS PROVISION ENSURES THAT THERE IS A CONTACT PERSON AVAILABLE TO ACT ON BEHALF OF THE STUDENT IN CASE OF EMERGENCIES.

The Education Guardian should be a resident in the UK, fluent in English, and, in most instances, aged over 25. Students have the option to enlist the services of professional guardianship companies, or they may choose a family member or friend for this role. For those seeking assistance in selecting a suitable guardian, we have established a strategic partnership with UK Guardians.

The role of the guardian

The designated guardian must fulfill the following minimum criteria:

Hold permanent UK residency (i.e., either a UK passport holder or possessing leave to remain)

Be an adult, aged over 25

Fluent in English

Available 24/7 in case of emergencies

Reside within a two-hour drive of the college

Capable of providing the necessary level of support to the student

The guardian's details should be included on accommodation and college registration forms, as well as consent letters. We will reach out to the guardian prior to the start of the term to ensure their full understanding of their responsibilities

The guardian is expected to grant parental permission for:

Weekend exeats

Participation in extracurricular/social activities or trips

Changes/alterations to the academic course/subject

Extended absences due to ill-health

Assistance in addressing attendance issues in college

Support for academic progress, such as arranging supplementary lessons

Coordination of airport transfers on arrival/ departure for each term of study, as needed

Additionally, the guardian is anticipated to manage emergency student situations, including:

Providing immediate, suitable emergency accommodation if the student cannot stay in their residence (due to ill-health) or attend college (e.g. suspension)

Offering prompt support for medical emergencies, such as visiting and assisting the student in the hospital and providing consent for medical procedures

Accommodation

AT LSI INDEPENDENT COLLEGE WE PROVIDE A UNIQUE ACCOMMODATION SOLUTION, OFFERING HOMESTAY OPTIONS FOR STUDENTS UNDER 18 AND RESIDENCE FACILITIES TAILORED FOR THOSE OVER 18, ENSURING A SUPPORTIVE AND AGE-APPROPRIATE LIVING ENVIRONMENT FOR ALL.

Homestay for under 18s

Our college takes great pride in offering homestay accommodation that fosters a warm and inviting atmosphere for students. Each homestay is meticulously selected to ensure a welcoming environment where students feel like a part of the family. The college accommodation officer conducts regular visits to these homes, ensuring that the high

standards of hospitality and comfort are consistently maintained. This careful selection and ongoing monitoring not only create a sense of security for the under 18 students but also contribute to a friendly and supportive living experience that enhances their overall college journey.

Admissions

PROSPECTIVE STUDENTS ARE
INVITED TO VISIT OUR CAMPUS
AND MEET WITH OUR STAFF
AND STUDENTS.

Admissions

How to Apply

Prospective students are invited to visit our campus and meet with our staff and students. We can arrange an interview at a mutually convenient time with our college principal. During the interview, you will be able to discuss your academic options, choose the most appropriate programme and ask questions about the school. You will also have the opportunity to speak with our Accommodation and Welfare Officer, if needed.

Following the interview, if you would like to apply to study at LSI Independent College, you should complete an application form. We will then be in touch with your current school to collect references and school transcripts. The decision whether or not to offer a place is based on the interview, your academic scores to date and your previous school's references.

For students living abroad, we appreciate that visiting the college before enrolment may not be feasible. Although we encourage students to visit the college before applying, to get a sense of the school environment, we can also arrange interviews by Skype. In addition, for students whose first language is not English, we require proof of your English level. We ask students to complete our own English level test. Depending on visa requirements, some students may need specific English language qualifications such as IELTS; we can advise further on this.

Transfer into Sixth Form 2nd Year

We can also accept students who wish to transfer into our second year of sixth form from another institution. If you are considering transferring to LSI Independent College, please contact us to discuss your options.

Scholarships

LSI Independent College offers academic scholarships to students who show exceptional potential. We look for students who demonstrate high aptitude for their course of study, as well as for students who show a willingness to make a significant and positive contribution to our student community.

Please note that scholarships are only applied to tuition fees. Accommodation and other college services are exempt and will be charged at full fees.

Open Days

You are cordially invited to visit the college on one of our open days throughout the year. This is an ideal opportunity for you to look around the college, meet the teachers and discuss your options informally. You can find out more information

about how to visit the college on our website. If you would like to book a place on any of the open days, please contact us on +44 (0) 207 794 8111 or at admissions@lsi.edu.

YOU ARE CORDIALLY INVITED TO VISIT
THE COLLEGE ON ONE OF OUR OPEN
DAYS THROUGHOUT THE YEAR.
